SUMMARY

Computer Science and Engineering graduate with experience building React interfaces, REST APIs, and n8n automation workflows. Worked at WebtrixLab and completed a software engineering internship at NNSEL. Interested in junior full-stack roles connecting frontend applications with reliable backend services.

TECHNICAL SKILLS

Core: TypeScript, JavaScript, Python, SQL, React, Next.js, FastAPI, Node.js, Express

Data & delivery: PostgreSQL, MongoDB, SQLite, Git, Docker, GitHub Actions, REST APIs

Additional: n8n, Gemini integration, MediaPipe, scikit-learn, Tailwind CSS

EXPERIENCE

AI Automation & Full-Stack Developer | WebtrixLab | 2025-Present (Part-time)

• Build n8n workflows for messaging, content publishing, applicant screening, and job alerts using Gemini and external APIs.

• Develop web applications with Next.js, Node.js, and MongoDB; manage implementation, deployment, and debugging.

Software Engineer Intern | NN Services & Engineering Ltd. | Feb-May 2025

• Built reusable React components for client dashboards and integrated Node.js/Express REST APIs backed by PostgreSQL.

• Reduced unnecessary renders and redundant API calls; collaborated through sprints, code reviews, and daily standups.

SELECTED PERSONAL PROJECTS

TechCommerce | Next.js, TypeScript, FastAPI, SQLAlchemy | Source

• Built a storefront and administration platform with product search, comparisons, cart workflows, and PC component compatibility checks.

• Repository includes tests for administrator authorization, invalid tokens, and audit logging.

hookdesk | Python, FastAPI, SQLite, Docker | Source

• Built signed webhook ingestion, persistent queuing, background delivery, retries, and a dead-letter queue.

• Repository tests cover duplicate ingestion, signature rejection, and delivery failure handling; designed for a single-process deployment.

Air Canvas | Next.js, MediaPipe, TypeScript | Source

• Built webcam gesture drawing with four gesture controls, undo, smooth strokes, and PNG export.

• Separated video, drawing, and cursor canvas layers so webcam refreshes preserve drawing strokes.

EDUCATION & RECOGNITION

BSc in Computer Science & Engineering | AIUB | 2022-2026 | CGPA: 3.76/4.00

Dean's Award: Fall 2023-24 and Fall 2024-25 | Cisco IT Essentials Certification
